## PROFILE

I am a passionate and detail-oriented Data Assistant and Full-Stack Web Developer with over 3 years of hands-on experience in both data operations and software development. I specialize in building responsive, modern web applications using Java, Spring Boot, and the MERN stack (MongoDB, Express.js, React, Node.js).

With a strong foundation in data management, backend systems, and API development, I enjoy solving complex problems and delivering reliable, scalable software solutions. I have supported business operations through clean, structured data processes and collaborated with cross-functional teams to build impactful IT projects.
